BANK AL HABIB LIMITED

CAPITAL ADEQUACY, LEVERAGE AND LIQUIDITY DISCLOSURES - UNCONSOLIDATED
AS AT 31 DECEMBER 2023

CAPITAL ASSESSMENT AND ADEQUACY

Capital adequacy

As per requirements of SBP, the Bank is required to comply with the capital adequacy framework which comprises the following capital standards:

i) Minimum Capital Requirement (MCR):

The MCR standard sets the paid-up capital that the Bank is required to hold at all times.

As of the statement of financial position date, the Bank's paid-up capital stands at Rs.11.114 billion as against the required MCR of Rs. 10 billion.

ii) Capital Adequacy Ratio:

The Capital Adequacy Ratio (CAR) assesses the capital requirement based on the risks faced by the banks. The banks are required to comply with the CAR as specified by the State Bank of Pakistan on standalone as well as consolidated basis.

During the year 2013, SBP revised the instructions on the computation of CAR based on Basel III Capital Reform issued by the Basel Committee on Banking Supervision. Accordingly, the Bank has assessed and reported its Capital Adequacy Ratio in the financial statements.

The CAR on the basis of above framework works out to be as follows:

	2023
Required CAR	11.500%
CAR on stand-alone basis	15.842%

It is the Bank's policy that the level of capital maintained by it should be such that it maximises the return to shareholders while providing sufficient buffer to absorb risks, including those from any unexpected events. Therefore, the Bank carefully monitors its capital adequacy ratio with a view to ensuring that growth in risk assets is accompanied by commensurate growth in capital, and endeavours to maintain the capital adequacy ratio at a level sufficiently higher than the minimum regulatory requirement. Stress testing of capital adequacy is carried out periodically.

Based on its experience over the years, the Bank expects to be able to raise the required capital internally through its operations as well as in the capital markets.

The Bank has a risk management framework commensurate with its size and the nature of its business. The Board of Directors has approved risk management policies covering key areas of activities, including a Risk Tolerance Statement and Recovery Plan for the guidance of management and staff of the Bank.

The Bank calculates capital requirement as per Basel III regulatory framework, using the following approaches:

Credit Risk Standardised Approach
Market Risk Standardised Approach
Operational Risk Basic Indicator Approach

iii) Leverage Ratio:

The leverage ratio comprises Tier 1 capital to total exposure, which includes on balance sheet exposures and credit equivalent of certain off balance sheet exposures adjusted by the regulatory credit conversion factors. The Bank's current leverage ratio is 3.729% which is above the current minimum requirement of 3% set by SBP.

Scope of application

The Basel III Framework for capital adequacy is applicable to the Bank both at the consolidated level (including subsidiaries) and also on standalone basis. Bank AL Habib Limited is the only bank in the Group to which Basel III capital adequacy framework applies. The Bank has ownership in the following subsidiaries, where the Bank holds more than 50% of voting shares as at December 31, 2023

Name	Type of entity	Country of incorporation
AL Habib Capital Markets (Private) Limited	Financial	Pakistan
AL Habib Asset Management Limited	Financial	Pakistan

The assets, liabilities, income, expenses and cash flows of above subsidiaries are included in the consolidated financial statements and also consolidated for regulatory capital adequacy purposes.
